

2011-2015 ARBA Standard of Perfection- Corrections January 1, 2011

Giant Chinchilla: Currently, the class weight reads: Juniors 11 pounds. It should read: Junior Does not over 12 pounds, Junior Bucks not over 11 pounds.

Amber Rex: Replace the current color description with the following: Surface color is to be light reddish-brown, carried well down the sides, lightly, and evenly tipped with chocolate. Intermediate ring color is to be golden orange, clearly defined over a dove-gray undercolor. Belly is to be white or tan over dove-gray undercolor. Eyes – Brown, ruby cast permissible. Faults – Indistinct intermediate band, failure to show dove-gray undercolor on the belly.

New Zealand: Currently, the class weight reads: Juniors Bucks and Does....minimum weight 4 ½ lbs. It should read: Juniors Bucks and Does....minimum weight 6 lbs.

CAVY:

Page 232 – under MARKED, add Tortoise Shell. It was inadvertently omitted.

Page 246 - under SOLIDS % AGOUTIS, COLOR, add Proximity to variety description..... 15 points. This was inadvertently deleted and must be included as the 15 points are part of the 100 point schedule.

Page 250 – CORONET – Currently has Type....15, Color....5. Change to Type....10, Color....10
